Equalization Of Peacetime Disability Rates

Starting July 1, 1973, those veterans with disabilities incurred during peacetime service will receive equalized pay based on war time rates.

This increase will be reflected in checks received on or about August 1, 1973. Previously, peacetime pay was based upon 80% of war time rates. VA will automatically make the proper adjustments without need of inquiry or application on the part of the recipient. August 1, 1973 checks will be accompanied by an information slip giving reason for the increase and all future checks will reflect the war time rates of pay.

Exceptions may occur, as they always do, and old rates of pay may still be shown on the August 1 check. Should this happen, contact for clarification of pay should be made with the nearest office of the Va. Division of War Veterans Claims.
